Symptoms

Of Defective Vision

Many persons have the idea that defective vision manifests itself only in a failure or inability to see clearly, but itching, burning, smarting of the lids, dull pains in the eyes or head, even the back of the head, all come from irregularities in the optical construction of the eyes and may be entirely relieved by correctly fitted glasses.

DR. J. T. JOHNSON Guarantees to correct every case that he undertakes. If your eyes are giving annoyance consult him at once.

The number of victims of the Windsor Hotel fire, at New York, has reached 26.

E. H. Westenhaver, one of the best known attorneys of Bowling Green, O., was murdered Saturday.

A Sunday Alarm.

The fire department was called out yesterday afternoon by an alarm sent in from box 52, corner Ashe and West Lee street. A fire in the loft of a two-story house on West Bragg, occupied by a colored family, was the cause of the alarm, but the blaze was extinguished before any of the department reached there. The streets were in such a miserable condition that the apparatus wagons mired to the hubs and stalled the horses. The hook and ladder team was stalled on South Davis street and the men were compelled to assist those aged mules to pull the truck from the mud.

The driver had left a plug fastened in the tapper of the bell at the engine house and it failed to strike, causing a slight commotion among the firemen.

Dr. Gilbert Here.

Rev. J. E. Gilbert, D. D., secretary of the American Society of Religious Education, addressed the Sunday School at Westminster Presbyterian church yesterday morning and at four in the afternoon delivered an address in the Washington Street Baptist church. Dr. Gilbert is one of the best known preachers in the land and his address was a fine one. Deep and inspiring and clothed in beautiful language it completely captured his audience. At night Dr. Gilbert preached at the First Presbyterian to a large congregation.

AGUINALDO FLEES FOR LIFE

With The Invincible Americans in Hot Pursuit.

"ON TO MALALOS" IS THE CRY.

The Filipino Chief Orders Death Meted Out To Those Who Refuse To Fight.

By Wire to the TELEGRAM.

New York, March 27.—Creelman cables from Manila today that the American troops continued to advance at daybreak, McArthur's division dashing beyond Polo, which was captured and burned yesterday, capturing Meyranayan, two miles from Polo, after hard fighting. The insurgents left detachments in the trenches to delay the advance of the Americans from Meyranayan. The insurgents are still flying up the railway. McArthur's column is marching toward Bulacan. The South Dakota boys charged the trenches at Polo, killing twenty-two and wounding sixteen. Aguinaldo has fled to Malalos. The captured Filipinos beg pitifully for food.

Aguinaldo has issued a proclamation required all who refused to fight to be punished with death. He had been daily promising his men they might loot Manila, saying that the Americans were beaten. The insurgents are bushwhacking about Pasig and Paranaque. The railroad over the conquered country to the rear is being repaired.

Fresh troops are rapidly getting into the cars to be pushed forward. Everything indicates that before forty-eight hours Wheaton and McArthur will be fighting before Malalos.

Among those who were killed taking Meyranayan is Captain Kornahk, commissary lieutenant of the Third artillery. The number of Americans killed at this battle was 22, wounded 166. Filipinos killed and wounded, 500. Col. Egbert, who was wounded yesterday, has since died.

McARTHUR PUSHING TO MALALOS.

Manila, March 27.—(3:25 p.m.)—McArthur's division spent last night and this morning at Maykawayan. After careful reconnoitering they pushed along the railroad this afternoon toward Malalos. If the statement of the thirty-five prisoners is true, the main body of the enemy has retreated to Malalos. No more trenches have been encountered, although over thirty villages have been captured, including the larger settlements of Bulacan, Gurguinto and Intervene. Circulars are posted at every railroad station, signed by the Filipino commander-in-chief ordering all spies and bearers of the enemy shot without trial, and instructing that all looters and ravishers be treated in the same manner and that all towns forced to be abandoned the existence of war, the circular maintains the undeniable right of the Filipinos to defend their homes and lands against the would-be dominators, who will kill them with their wives and children adding that this ought to impel all Filipinos to sacrifice everything.

The evacuation of Malabon by the insurgents was most picturesque. Thousands of men, women and children, loaded with household goods, poured across the swamps. In the early morning an exploded oiler on the railroad bridge delayed the advance. Ten Oregonians, searching for the bodies of two of their comrades who had been killed in the early fighting, sneaked into the city and found everything in chaos. The inhabitants, seeing them, fled, giving the American troops entire possession. The Americans did not occupy the town.

AG WASHINGTON.

Washington, March 27.—Otis cables that battle has continued all day today, with a loss of about forty Americans. Our troops will press forward tomorrow morning at daybreak. Aguinaldo commanded his forces in person. Our troops met the concentrated insurgent body on the northern lines and drove them back with considerable slaughter. Aguinaldo left a hundred dead on the field, and many prisoners were captured.

MORE TROOPS TO MANILA.

Washington March 27.—Otis has nine thousand five hundred men. These will be augmented with sixteen hundred regulars next week. Six additional regiments are under orders for Manila.

McARTHUR OCCUPIES MALALOS.

Manila, March 27.—General McArthur has occupied Malalos, the junction of the two roads leading to Malalos. A considerable force of the insurgents fled back from the main body at Malalos and taking advantage of the movement, fell upon Lawton's lines, south of the city.

NEWS FROM DEWEY.

Washington, March 27.—Dewey cables the Olympia, Oregon, Monadnock, Monterey, Callao, Manila and Helena are occupying strategic positions in

Manila Bay, while the Boston, Charleston, Concord and Petrel are cruising among the southern islands. The Baltimore and Yorktown are cruising off Luzon.

THE LATEST.

Manila, March 27.—(7:40 p.m.)—One thousand of Aguinaldo's rear guard made a stand in the trenches at Marillas. Six Americans, including three officers, were killed and forty wounded.

A Correction.

Oak Ridge, March 25, 1899. Editor Telegram:—The report of the Bingham-Oak Ridge game in the Charlotte Observer must have been sent to it by forked lighting or set up by a fellow who was in a condition to see double. The score was 14 to 6 in favor of Oak Ridge, not 66, as the Observer had it, and the Telegram copied it.

Bingham was held down to 2 runs by Oak Ridge till the eighth inning, when having so good a lead Oak Ridge thought it safe to put in another pitcher. Oak Ridge played good ball at the University. The game was unsatisfactory to the boys and they feel confident they could have beaten the University if they had had justice. The University boys were themselves loud in their condemnation of the upping. The boys will have their balling clothes Tuesday in the game with Cornell.

A Fine String Orchestra

Negro Soldiers.

The negro soldier, with a gun in his hand, and under the strict surveillance of his military superiors, is no doubt capable of effective service on emergency occasions; but the negro soldier after his gun has been laid aside does not so readily revert to a peaceful occupation. He seems disposed to make little private wars on his own account, and to become a turbulent factor in the community.

It was thought during the late war that negro soldiers would be of especial help to military operations in the West Indies because of their being better able to endure the hardships of the extreme southern climate; but the black soldiers bring back from the tropics some tropical notions that are not calculated to promote the ends of peace and good neighborhood. It may be better to make our wars hereafter without attempting to impose any share of the white man's burden upon men of other colors, since the latter are not so shifty in turning their spears into pruning hooks.—Philadelphia Record.

THE BATTLESHIP MISSOURI.

Its Launching At Newport News To Be a Grand Occasion.

MISS COCKRELL TO BE SPONSOR

Much Interest Is Taken By The Southern People In The Storage Question—Other News.

Special to THE TELEGRAM.

Washington, March 27.—Miss Cockrell, daughter of Senator Cockrell, of Missouri, who has been selected by the secretary of the navy to act as sponsor for the battleship Missouri, is well known in Washington. In addition to being very pretty and charming in manner, she has many friends. For several seasons past she has spent the winters in Washington with her parents.

The launching of the battleship Missouri, which is of the same class as the Maine and Ohio, will be made an occasion by the Missouri people long to be remembered. Nearly all of the Missouri delegation in congress are expected to attend, as will also the Governor of Missouri, and other state officials. It is expected also that nearly all of the Missouri residents in Washington, in official life, will be present at the launching. It is not known whether Secretary Long will be present at the launching or not, but he will be provided his official duties will permit. There will be, however, several representatives of the navy department in Newport News on the occasion.

Commissioner Wilson, of the internal revenue, has written a letter to Messrs. Smith and Eberly, of Jackson, Georgia, in reply to a letter from them, dated March 2nd, in reference to the question of taxation of a bill presented for storage charges to a person owning cotton on which a charge for storage has accrued by reason of the cotton having remained over a certain allotted time in the warehouse.

From the large number of inquiries which have been received at the treasury department for a decision upon this question, it appears that much interest is taken in the subject in the southern states and especially in the cotton growing states. The decision of the commissioner is, in brief, that where cotton has been received for compression and handling and remains longer than the allotted time, no tax as a warehouse receipt accrues on the bill presented for the charges for storage.

The great amount of rainfall this winter it is said has had a very damaging effect on the oyster industry. Mr. M. E. Black, of Virginia, who is stopping at the Ebbitt House for a few days says it is estimated that from the effects of the rain, half a million bushels will be destroyed in York River. Some of the oysters will lose 75 per cent. of their beds. It has been many years, he says, since the Virginia planters have experienced a more disastrous season.

United States Marshal Treat, of the eastern district of Virginia was in the city Friday and Saturday of last week on business of interest to Virginia. He made his headquarters at the Ebbitt House.

The postmaster at Rocky Mount, North Carolina, who was apprehended at Washington on a charge of defalcation to the extent of some three thousand dollars, has been returned to North Carolina where he will stand trial.

Assistant Attorney General Tyner, and Mrs. Tyner, have left Washington for a visit to Magnolia Springs, Florida. Before returning to Washington they will spend some time at various resorts in the state, visiting among other places, Palm Beach.

Representative Livingston, of Georgia, is in the south for a brief recreation.

Ex-congressman Martin and family, it is stated are in North Carolina, at their home, where they went shortly after the adjournment of congress.

Acting Assistant Surgeon H. M. Cohen, stationed at Camp Wetherill, South Carolina, has been ordered to Washington, to report to the Surgeon General.

Free Silver Leaders.

Hot Springs, Ark., March 25.—William J. Bryan, of Nebraska, and Ex-governor William J. Stone, of Missouri, arrived in Hot Springs this evening. An important conference of free silver leaders is expected to take place tomorrow or Monday. Senator Mantle of Montana, Senator Pittigrew of South Dakota, silver republicans; Ex-senator Fred DuBois, of Idaho, and Ex-senator John H. R. Egan, of Texas, are in the city. John C. Sheehan, of Tammany, who has been here for some time, has postponed his return to New York for a week and will, it is believed, participate in the conference.

TRAGEDY NEAR KINSTON.

Lonnie Lane Killed Miss Glennie Sauls and Then Commit Suicide.

Kinston, N. C., March 25.—Yesterday morning Mr. Lonnie Lane, about 22 years old, and Miss Glennie Sauls, about fourteen, both of Fort Barnwell, a village nineteen miles east of Kinston, were noticed taking a walk. Not returning, the neighbors began to search for them, and about 4 o'clock yesterday afternoon, their bodies were found near the village, it appearing that he had shot her and then killed himself with a pistol. Both were of well-to-do families. The young man had been forbidden to visit the house, his attention to the young girl not being acceptable to her parents, and this was probably the cause of the affair. The young girl's mother was visiting in Georgia, and her father had gone to Newbern at the time of the tragedy.

IMPRACTICABLE.

The following method to crush the trusts, proposed by the Milton Herald, is beautiful in theory but it won't work. The average citizen is looking out for No. 1 and if a trust will sell him an article cheaper than he can buy it elsewhere, you may bet your bottom dollar a bargain is struck:

"When we go to buy an article, let our first inquiry be: Is its manufacture or sale in any way controlled by a trust or combine? Has it the mark of the beast upon it? If so, touch it not, for there is death in it. The influence and power of the mighty trust are more blighting than the frost, and more blasting than the desert wind. Down with the towering evil! With-draw your patronage from it, and let it die the miserable death it deserves. If you can't get shoes without buying them from the trust kill an ox, tan the hide and make your shoes at home. If you can't buy soap without patronizing the trust, let your face go dirty a while longer, or take hickory ashes and spoiled hog lard and make your own soap. If you can't be buried without buying your coffin from the coffin trust make a pine board box or sacrifice your carcass to the sharks of the sea, rather than give your substance to the ravenous sharks of the land, when by so doing you only intensify their greed.

"Let the same spirit of freedom and independence characterize us today that characterized our Revolutionary ancestors when they drank water rather than pay the tax on British tea, and when our wealthiest men donned the plainest homespun with becoming dignity rather than bow to British tyranny, and encourage British oppression by purchasing British silks and laces. Our cause is no less just than was theirs; for the British tyranny was no worse than is the tyranny of the trust. Let us drink tea made from gall berries, rather than buy coffee from the coffee trust, and sweeten it with crab-apple vinegar, rather than patronize the sugar trust. Arouse, O men, and strike for your freedom! The necessity of self-preservation confronts us, and calls upon us to unite ourselves in a bond of universal brotherhood and oppose the foe."

It is amusing to observe the changeableness of the public writers. They are compelled to be changeable, for they must cater to the public taste, which is always unsteady. These quill drivers have long-stored ridicule, irony, satire, censure, indignation, etc., which they first bestow upon one favorite and then upon another. Recently the breeze has shifted and Alger is given a rest, while Bryan receives a storm of indignation. McKinley, Schley, Sampson, all of them, get it "in the neck" without mercy. The only figure prominent before the public gaze who has been spared is the hero of Manila. Soon the tickle populace will tire of his favorite, and its ministers will turn upon him their keen-pointed arrows.

The fun in the Philippines is at an end. The thing "before the house" now is strict business. One Filipino is said to be worth two or three Spaniards, but in the resistless advance of the American he reads his ultimate destruction and fights with savage ferocity, that desperation born of despair. This fact atones in a great measure for his lack of discipline and rude implements of warfare. The struggle is now on in earnest and the crisis is not far distant. Though no one doubts the result of the battle, yet the destruction of the black men of the Pacific will necessitate the shedding of much Christian blood.

Though winter lingers with provoking stubbornness in the lap of spring, and overcoats, rubber shoes and umbrellas are still greatly in demand, yet with the grip dead and conquered and the ignis-fatus of smallpox vaporized, Greensboro cannot fail to spring forward to increased business activity 'neath the stimulus of the reaction, and, partaking of the gladness of springtime that lies latent on the ambient air and encouraged by the smile of waiting prosperity, make giant strides for the great things the future holds in store for her.

An exchange very appropriately remarks that McKinley and Reed's visit to Jekyll Island is a sort of Dr. Jekyll and Mr. Hyde affair. What schemes are these worthies concocting down there on a remote island off the South Carolina coast? If their business is clean, they are in bad company—with Mark Hanna.

A Very Bad Bargain.

That figures are sometimes wonderful things is illustrated by the following actual occurrence in a nearby college town a number of years ago: A student in the university was a member of an eating club of 12 members which regularly patronized a certain little hostelry. He was lucky enough one day to become the recipient of a legacy amounting to about \$1,000, and, showing the sum to the hotel keeper, agreed to give it to him on condition that the sum be accepted as payment for meals eaten by the student until every possible combination of the seating arrangements of the boys had been exhausted, the order of seats occupied by the boys to be changed at each meal.

The hotel keeper thought it a most profitable deal, but a friend of his with a mathematical turn proved to him that it really would mean ruin, as no less than 479,001,600 arrangements were possible, or a total of \$5,748,019,200 individual meals, which, at the rate of 10 cents per meal, would represent a value of the tidy sum of \$57,480,192. The contract was carried out for the four years of the boy's student life, when it really drove the hotel man from business, as reckoned on a basis of \$3 per week per student the hotel man had lost \$3,900, while the students had only eaten 52,416 individual meals and had still a credit of 5,748,966,784 meals, or enough to give them three meals a day for 498,718½ years.—Philadelphia Record.

Everything Leaks.

Ordinary tumblers will hold water because the globules of water are too big to squeeze through the glass. But glass is as full of holes as a sponge, and air blows right through it, because the specks of air are smaller than the holes. Put a bell into a big globe of glass, seal up the vessel, pump out all the air, then ring the bell inside, and you hear nothing. There is not air enough in the globe to carry a sound. But if you let the globe aside for a month or so, and no matter how carefully you have sealed up the neck you will find that you then can hear the bell when you ring it. Air has got into that globe—enough anyway to carry a sound has leaked in through the imperfections of the glass.

The ordinary incandescent lamp is a glass globe with the air pumped out, and after a few months sufficient air leaks through to dim the light which comes from the thread of electrified charcoal inside. We can make plenty of vessels to hold water, but nothing has been made which will hold air without any leakage. The air sneaks in through holes which are too small for the human mind to imagine.

In fact, everything leaks.—Answers.

As the season of the year when pneumonia, la grippe, sore throats, coughs, colds, catarrh, bronchitis and lung troubles are to be guarded against, nothing "is a fine substitute," will "answer the purpose," or is "just as good" as One Minute Cough Cure. That is the one infallible remedy for all lung, throat or bronchial troubles. Instantly and vigorously on having it if "something else" is offered you. Howard Gardner.

Discovered by a Woman

Another great discovery has been made, and that too, by a lady in this country. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery by purchasing of us a bottle of Dr. King's New Discovery for consumption, and was so much relieved on taking first dose that she slept all night; and with two bottles she had been absolutely cured. Her name is Mrs. Luther Lutz. Thus writes W. C. Hammond & Co., of Shelby, N. C. Trial bottles free at C. E. Holton's drug store. Regular size 50 cents and \$1.00. Every bottle guaranteed.

Will be Mustered Out at Savannah.

Washington, March 25—Adjutant General Corbin informed your correspondent today that the First North Carolina Regiment will be mustered out at Savannah, official notice having been sent to General Rouse to be in readiness to receive the regiment. It is estimated that it will take three weeks to finally disband the regiment. It is left to General Brock to send the volunteers from Cuba upon such transports and at such time as he may direct.

The cruiser Raleigh, one of Dewey's gallant ships, may be sent to Wilmington, N. C., before finally going to Norfolk for repairs. This was announced at the navy department today. Should an organized effort be made by the citizens of North Carolina, it is quite probable that they could exact a definite promise from the department to send the vessel to one of their ports, where a welcome could be extended to the ship that took part in the battle of Manila Bay. It is understood that a captured Spanish cannon is being brought on the Raleigh to be presented to the city of Raleigh. This information comes in a private message and not through official channels.—Special to Charlotte Observer.

Mrs. HOUSEKEEPER:
Please permit us to ask you a very pointed question: Have you a Universal Food Chopper? By this we do not mean a meat grinder, but a Chopper, which takes the place of chopping bowl and beater.
It chops meat, of course, but it does more. You can chop ham, coconut, or bread instead of grating it. You can—but we can't tell it all here. Our booklet gives full information free. You will have use for it every day in the year. It is very simple and very cheap. Please call and let us show it to you. Yours truly,

Shrier's First Offerings.

We take pleasure this season in presenting for your consideration what we consider the finest assortment of Form-Fitting Shoes for men and ladies, misses and children, ever shown in Greensboro.

Our lines for Spring are now complete and only await the prestige of your approval.

Every new idea in quality and finish, ease and comfort, grace of style and excellence of workmanship are embodied in this season's production.

Owing to our central location and the nominal expense required to conduct our business, we are enabled to sell our goods 25 per cent cheaper than any house in Greensboro, quality and make considered.

The question where to buy good and reliable goods at the right price is a very important one. We feel if you call on us, we can answer the question to your entire satisfaction, and make a lasting impression besides.

Do not be deluded by the thought that the assortments in the large cities are greater. True, the quantity is greater, but the assortment is no better, and the price is correspondingly higher, owing to the increased expense.

Kindly call on us at your earliest convenience and allow us to prove to you that these statements are true.
